

Assembly Instruction

FIXING FOR GLASS PANELS

arcadia®

The assembly instructions are intended for qualified skilled craftsmen who have the knowledge of how to carry out safe and professional installation work! If you do not have one of these qualifications, this work must be assigned to an expert installation company.

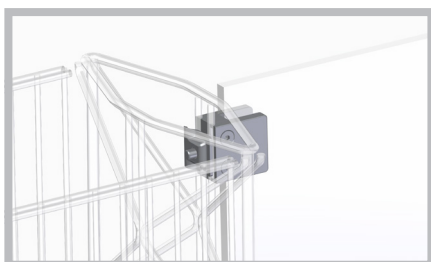

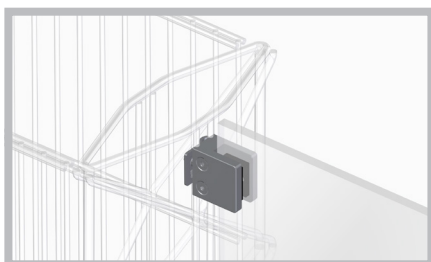

One piece of fixing for glass panels for Pergone® 23 cm, 16 cm or 13 cm consists of: 1x basic part with a firm back [image 1] 1x cover plate for the basic part [image 2], 2x countersunk head screw M 6x16 [image 3], 1x underlay V2A [image 4], 1x cylinder head screw M 8x25 [image 5], 2x rubber buffer (thickness depending on the glass panel thickness) [image 6] and 2x screw cover cap (without illustration).

The following small parts are usually not required, but included in the scope of delivery (without illustrations):

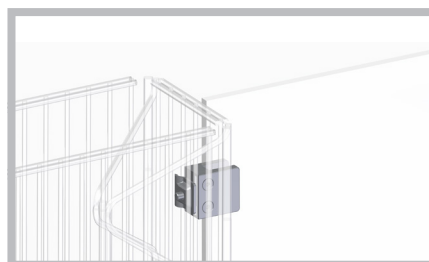

1x locking pin Ø 8x25 mm (the panel would have to be pre-drilled for this), 1x small cover plate 35x20 mm (element to finish the fixing of glass panels at the top or bottom)

Before carrying out any installation work, please make sure that the scope of delivery is complete.

Installation of Pergone® 23 cm

Installation of Pergone® 16 cm

Installation of Pergone® 13 cm

Notice: Application-specific recommendations, both written and spoken, which were provided by us to the best of our knowledge based on experience according to the current state of scientific and practical knowledge, are non-binding and shall not constitute a contractual legal relationship and/or secondary obligations. Under no circumstances shall the buyers of the product be released from their obligation to check the product for its suitability for the intended purpose on their own responsibility. No liability shall be accepted for printing errors and mistakes. Subject to change without prior notice. State: 04/2019
