

# Assembly Instructions

## HEXAGON

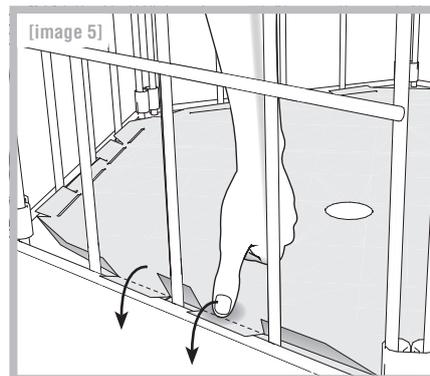

arcadia®

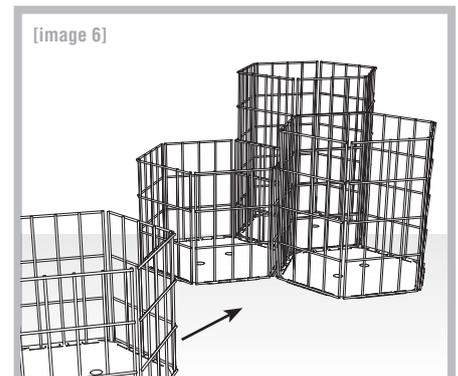

Before starting the construction work, it must be ensured that the ground surface is flat and even (paving stones, concrete, gravel, or sufficiently compressed soil). One Hexagon basket consists of 1× Hexagon element [image 1] and 1× base plate [image 2]. For each Hexagon set, 2× connection clips [image 3] are supplied for each lateral surface standing side by side. Before carrying out any installation work, please make sure that the scope of delivery is complete.

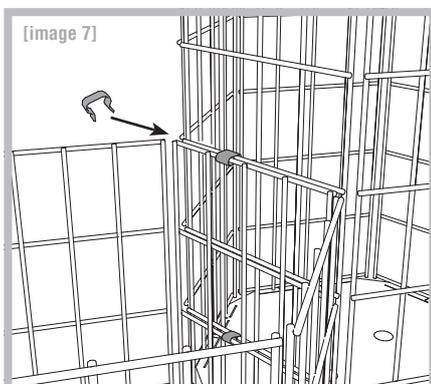

In order to convert the Hexagon element into a hexagonal Hexagon basket, unfold the Hexagon elements and position them on the prepared surface. Then press the base plate at an angle from the top down to the bottom until it is surrounded on all sides by all corners of the Hexagon element.

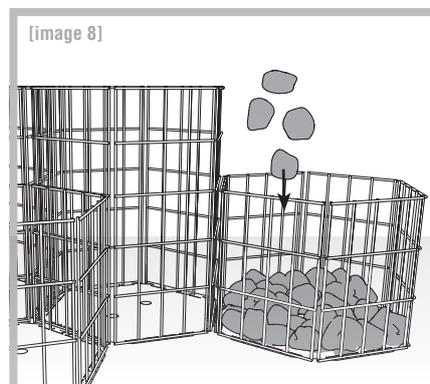

To prevent the base plate from falling out, secure it by pressing the perforated side pieces over the bars. Repeat the steps until all Hexagon baskets are pre-assembled.

Then arrange the Hexagon baskets as desired on the prepared ground surface.

Then secure the Hexagon baskets to the lateral surfaces standing side by side at the top and bottom centre using the connection clips [image 3]. For each lateral surface standing side by side, 2× connection clips are included in the scope of delivery.

The filling material can then be filled with caution into the Hexagon baskets until the upper end of the mesh mats has been reached.

**Notice:** Application-specific recommendations, both written and spoken, which were provided by us to the best of our knowledge based on experience according to the current state of scientific and practical knowledge, are non-binding and shall not constitute a contractual legal relationship and/or secondary obligations. Under no circumstances shall the buyers of the product be released from their obligation to check the product for its suitability for the intended purpose on their own responsibility. No liability shall be accepted for printing errors and mistakes.

Subject to change without prior notice.
